1- Game Description

A monster adventure like never before!

Monsters of all sizes are assailing the lands. Heroes gather at the old tavern where the bounty for hunting them down are on display and for the taken. The rewards are grand for the bravest warriors, those who can take down the biggest ones.

MONSTER BLOX is a 6 reel, 4-row high volatility slot game with 40 pay-lines evaluated from left to right. The game features respins with expanding rows, random Wilds, Scatters, and a free spins game with panel multipliers played on a 6x8 reel set.

During the base game, any symbol can appear as a block up to 6x6. Blocks appear on every spin, and every win offers a respin increasing the panel size by one more row and the number of pay lines; additional wins during respins keep growing the panel to a maximum of 6x8 and 100 pay lines. Also, 1 to 3 random Wilds placed on block symbols may appear during respin.

Five or more Scatters appearing on the panel triggers a Free Spins bonus game played on a 6X8 reel set and 100 pay lines. The number of free spins awarded is the same as the number of scatters appearing. Scatters are calculated by symbol size, 2x2 block: 4 Scatters, 3x3 block: 6, and so on.

During Free spins, each Scatter appearing in the panel provides an extra spin and gets collected in a meter awarding a multiplier at the end of the session. The multiplier value depends on the number of scatters collected, reaching up to 10x when 15+ are collected.

5- Game Rules

Welcome to Monster Blox, a high volatility Video Slot with the signature Gigablox feature, Monster Re-spins with growing panel, Wilds, Wild Bounty feature and a Monster Free Spins bonus game with up to a 10x Monster Multiplier!

ABOUT THE GAME

An adventure like never before, Monsters of all sizes are assailing the lands. Heroes gather at the old tavern where the bounty for hunting them down are on display and for the taken. The rewards are grand for the bravest warriors, those who can take down the biggest ones.

This is a 6x4 video slot with Gigablox feature, Monster Re-spins with a growing panel up to 6x8 and Wild Bounty feature and a Monster Free Spins bonus game with bigger panel, an increasing Monster Multiplier and Wild Bounty feature!

MAIN GAME

The main game has a 6x4 panel with 40 Payline evaluated from left to right.

1-3 Wilds can randomly appear on any reel. Wilds substitute for any other symbol except the Scatter.

Scatter pays on any position on the reels. 5 or more scatters trigger the Monster Free Spins bonus game.

The main game features a Monster Re-spin feature with a growing panel per re-spin and a Wild Bounty feature.

When 5+ scatters land on the reels it unlocks the Monster Free Spins bonus game, awarding as many free spins as scatters.

* If Monster Re-spins and Monster Free spins are triggered at the same time, Monster Re-spins will play first, then Monster Free Spins will trigger.

* If more than 5 scatters land during a Monster Re-spin these are added to the number of free spins.

GIGABLOX

Gigablox are oversized symbols on the reels that function like individual symbols in a 2x2 to 6x6 formation. Scatter symbols can land as Gigablox.

MONSTER RE-SPINS

Each win in the main game awards a re-spin. During the re-spin the panel grows with one row (6x5) and 15 additional paylines. Each new win during re-spin will award an additional re-spin and the panel will grow with an additional row and 15 additional paylines. The maximum panel size is 6x8 with 100 paylines. Re-spins are awarded until there is no win. Random wild placements (Wild Bounty) are awarded during re-spins and can be placed on any symbol size.

WILD BOUNTY

During any spin in the base game the hunter can transform any symbol into Wilds. Gigablox symbols also have a chance to get transformed. In Monster Free Spins the Wild Bounty happens more often and always in no win spins.

MONSTER FREE SPINS

Land 5+ Scatters in the main game to trigger Monster Free Spins. The number of free spins awarded equal the number of scatters in the panel when triggered. Monster Free Spins are played with the same bet as the activating spin on a 6x8 panel and 100 paylines.

Each Scatter symbol that lands on the reels in Free Spins adds 1 additional Free Spin.

Each scatter is collected into a meter that increases the Monster Multiplier at certain levels.

The Wild Bounty feature appears more often during Monster Free Spins and appears during no win spins guaranteeing a win.

MONSTER MULTIPLIER

Each scatter is collected into a meter that increases a panel multiplier. The panel multiplier will increase as follows:

- * 0-1 Scatters: 2x multiplier
- * 2-5 Scatters: 3x multiplier
- * 6-14 Scatters: 5x multiplier
- * 15+ Scatters: 10x multiplier

HOW TO CALCULATE PAYLINE WINS

- * To calculate your total payline coin win, calculate all payline wins and add them together.
- * To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the left most reel.
- * If three or more identical symbols are lined up, find the coin win value in the dynamic Pay Table. There you can find the value for all symbols for 3 in a row, 4 in a row, 5 and 6 in a row. Only the highest winning combination per line is paid out.
- * If the winning combination starts with three Wilds, there can be many ways to interpret the win. In this scenario, only the highest win combination is paid out.
- * After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.
- * The above doesn't include Scatter symbols which do not need to be on a payline to award a prize.
- * Calculate the total win in the home currency by multiplying the total coin win with the coin value.
