Welcome to Robin - Nottingham Raiders, a high volatility Video Slot with 20 paylines, Wilds, Special Wilds collection, re-spins with Wild placements and a Free Spins bonus game with roaming Wilds and panel multipliers.

ABOUT THE GAME

The narrow streets of Nottingham are empty of life. In the shades of the castle they hide, waiting for the change of watch. As darkness surrounds the castle, hooded men jump over the walls. The raid has begun!

This is a 5x4 video slot with 20 paylines, special wild collection, re-spins with wild placements and a Free Spins bonus game with roaming wilds, panel multipliers, and free spins re-triggers.

MAIN GAME

The main game has a 5x4 panel with 20 paylines evaluated from left to right. When special wilds land on the panel they get collected in a meter with 9 slots. Collecting 9 Special Wilds triggers a re-spin, during which all collected wilds fall in the panel at random positions.

When 3+ scatters land on the reels it unlocks the Free spins bonus game, awarding 15 free spins.

- * The special wilds are collected and stored per bet level.
- * The collected special wilds are displayed in a meter with 9 slots.
- * When all 9 slots are filled, a re-spin is triggered and all collected wilds fall in the panel at random positions.
- * Wilds can overlap each other counting as one when falling into the panel.
- * If Re-spin and Free spins are triggered at the same time, free spins will play first, then the re-spin will trigger.

FREE SPINS

Land 3+ Scatters in the main game to trigger Free Spins. 15 free spins are awarded.

During Free Spins, the chance of getting Special Wilds is higher.

The collected special wilds are displayed in a meter with 9 slots in groups of 3.

Each group is a meter. Collecting 3 Special Wilds will fill the active meter and award 3 extra free spins.

All 3 collected wilds will then fall in the panel at random positions and roam around for the entire free spins session. On each spin these roaming wilds will

change position.

You can collect and trigger a maximum of 9 wilds, having all roaming on the panel simultaneously. If multiple Wilds land in the same reel, a panel multiplier is applied.

- * Roaming Wilds can overlap each other counting as one.
- * 3 Wilds in the same reel add a x2 reel multiplier.
- * 4 Wilds in the same reel add a x3 multiplier.
- * The panel multiplier is calculated by multiplying all reel multipliers together.

HOW TO CALCULATE PAYLINE WINS

- * To calculate your total payline win, calculate all payline wins and add them together.
- * To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the left most reel.
- * If three or more identical symbols are lined up, find the win value in the dynamic Pay Table. There you can find the value for all symbols for 3 in a row, 4 in a row and 5 in a row. Only the highest winning combination per line is paid out.
- * The Scatter symbol pays anywhere. Scatter wins are multiplied by total bet and added to the payline wins.
- * If the winning combination starts with three wilds, there can be many ways to interpret the win. In this scenario, only the highest win combination is paid out.
- * After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.
- * Collection Free Spin wins are rounded to nearest even value (using the bankers rounding algorithm) to avoid showing a fraction of a cent. The total win in the end screen displays the final rounded win.
