1- Game Description

The Valkyries are gathering at the gates of Valhalla to welcome the fallen heroes. As they sing their battle cry, they lead their souls to the hall of the slain, where the rewards await.

This is a high volatility video slot game played on a 5x3 grid, 10 pay lines evaluated from left to right. The game offers a great mix of features, Power Reel, Dropping Wilds, Locking Wilds, Wild Respins, and a free spins bonus game with a buy option.

In the main game, Dropping Wilds can randomly appear on any reel and walks one position down in each spin until leaving the panel. Wilds substitute for any other symbol except the Scatter.

2 Scatters anywhere in the panel activates a Power Reel placed below the grid, offering different Wild features with Respins. Red (Dropping Wilds) and blue (Locking Wilds) symbols may appear in any of its cells.

When dropping wilds appear on the Power Reel, they move to the top position of the corresponding vertical reel; Wild Respin continues until all Wild symbols disappear from the panel. Locking wilds only appear when the Wild Reel is activated and remains sticky on the position where it landed until the feature ends. Also, two Respins are granted even when there are no dropping wilds present. Both types of Wilds may come with random multipliers of 1x, 2x, 3x, 4x, 5x, and 10x.

3 scatters anywhere on the reel Triggers a Bonus game awarding 10 Free Spins. In Free Spins, the Power Reel is unlocked during the entire session. 2 additional Free Spins are granted for each unlocked Wild that appears. When dropping wilds overlap any other Wild, they merge, and their multipliers are added for that spin.

Welcome to Valkyries, a high volatility 5x3 Video Slot with 10 paylines, Re-spins, Power Reel, Dropping Wilds, Locking Wilds, Wild multipliers, and a Free Spins bonus game with Re-triggers!

ABOUT THE GAME

The Valkyries gather at the gates of Valhalla to welcome the fallen heroes. As they sing their battle cry, they lead their souls to the hall of the slain, where the rewards await.

MAIN GAME

The main game has a 5x3 panel with 10 Paylines evaluated from left to right.
Dropping Wilds can randomly appear on any reel. Wilds substitute for any other symbol except the Scatter.

2 Scatters trigger the Power Reel which triggers Wild Respins. The Scatter pays on any position on the reels.

When 3 scatters land on the reels it unlocks the Free Spins bonus game, awarding 10 Free Spins. The Power Reel is unlocked during the whole session. Each locking wild that appears awards 2 additional Free Spins.

Dropping wilds from base spin are carried forward to Power Reel respins and drop one position as usual.

DROPPING WILD

In the main game, each new dropping wild on a base spin walks one position downwards in the next spin until it leaves the panel. Dropping wild positions are stored per bet level. Changing bet when a dropping wild is present in the panel will remove it from next spin.

When dropping wilds appear on the Power Reel, they move to the top position of the corresponding vertical reel. Dropping wilds can include a random multiplier.

Multiplier values can be: 1x, 2x, 3x, 4x, 5x, 10x.

* Dropping wilds are locked to the bet. Changing bet will retrieve the dropping wilds present in the last panel played at that bet.

LOCKING WILD

Locking wilds only appear when the Wild Reel is active.

When a locking wild appears on the Wild Reel, it moves to any position of the corresponding vertical reel and remains sticky on that position until the feature ends. Locking wilds can include a random multiplier.

Multiplier values can be: 1x, 2x, 3x, 4x, 5x, 10x.

POWER REEL

Two scatter symbols anywhere on the reels trigger a respin enabling the Wild Reel, a horizontal reel below the panel. The Power reel spins and stops only once during the feature. It can have different reel modifiers which jump on the vertical reels.

- * Dropping wild with multiplier
- * Locking wild with multiplier
- * Empty spaces

Wild re-spins are triggered and re-spins until there are no dropping wilds left on the panel.

- * A locking wild in the Power Reel will award 2 guaranteed respins, even when there are no dropping wilds present.
- * When Empty spaces appear on the Power reel no action is performed on the corresponding vertical reel.
- * Wild overlaps will increase Wild multipliers for that spin.
- * When the feature ends the game returns back to the base game and all locking wilds are removed from the panel.

WILD RESPIN

The game respins until there are no dropping wilds left on the panel.

WILD OVERLAP

If a dropping wild overlaps a locking wild, they will merge for that spin and their multipliers added. There are other scenarios where Wild Overlaps apply:

- * When a dropping wild moves on top of a locking wild.
- * When a dropping wild lands on top of a wild.
- * During Power Reel when a dropping wild is released on top of a wild.
- * During Power Reel when a locking wild is released on top of a wild.
- * During Power Reel when a dropping wild is released on top of a locking wild.

Cases when it does not apply:

- * When a panel wild lands under an existing dropping wild.

- * When a panel wild lands under an existing locking wild.
- * During Power Reel when a dropping wild is released on top of a locking wild on top of a wild, only the dropping wild overlapping the locking wild counts.

FREE SPINS

Land 3 Scatters in the main game to trigger Free Spins. 10 Free Spins are awarded. Free Spins are played with the same bet as the activating spin. The Power reel is unlocked during the whole session. Each Locking Wild that appears adds 2 additional Free Spins.

HOW TO CALCULATE PAYLINE WINS

- * To calculate your total payline win, calculate all payline wins and add them together.
- * To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the left most reel.
- * If three or more identical symbols are lined up, find the win value in the dynamic Pay Table. There you can find the value for all symbols for 3 in a row, 4 in a row, 5 and 6 in a row. Only the highest winning combination per line is paid out.
- * If the winning combination starts with three Wilds, there can be many ways to interpret the win. In this scenario, only the highest win combination is paid out.
- * After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.
- * The above doesn't include Scatter symbols which do not need to be on a payline to award a prize.
