1- Game Description

In the year 1921 of the lord, deep in the New Orleans French quarters, a Voodoo Shop is alight at the end of a dark and sinuous street. As Mardi Grass rages across town, the former priest is at work. Spells are cast towards the celebration, hex bonding musicians and transforming the streets into a magic ritual without precedence, all to win Oshun's favour!

Voodoo Hex is a medium/high volatility 3x3 Video Slot game with 5 paylines evaluated from left to right.

The game features Wilds, Mystery Stack respins with progressive panel multipliers and a Free Spins bonus game with a possible buy option in the base game. During the base game, Wilds can randomly appear anywhere in the grid, substituting for any symbol except the Scatter.

The Mystery Stack respins feature triggers when 2 reels are filled up with the same symbol. The triggering symbols turn into mystery stacks awarding a respin. When the spin ends, all the mystery symbols reveal themselves, presenting a randomly selected symbol that may include Coins with multipliers up to 100x. After providing Win, all symbols equal to the revealed symbols become mystery symbols again. The mystery stack moves one step down on each respin and continues until no mystery symbols are left on the panel. Additionally, a global progressive multiplier starting at x1 and increasing by one is added on each respin.

1 Scatter landing in the centre of the grid triggers the Free Spins Game, where 7, 9, 12 or 15 free spins are randomly awarded.

During the Free Spins game, the Mystery Stacks feature triggers more often, and the progressive multiplier is applied to every spin, not only during the Mystery Stack respin feature.

There are 3 buy Bonus-Game options in the base game, where you can purchase 7, 15 or Random number of Free Spins.

5- Game Rules

Welcome to Voodoo Hex, a high volatility 3x3 Video Slot with 5 paylines, Wilds, Mystery Stack respins with progressive panel multiplier and a Free Spins bonus game!

ABOUT THE GAME

In the year 1921 of the lord, deep in the New Orleans french quarters, a Voodoo Shop is alight at the end of a dark and sinuous street. As Mardi Gras rages across town, the former priest is at work. Spells are cast towards the celebration, hex bonding musicians and transforming the streets into a magic ritual without precedence, all to win Oshun's favour!

MAIN GAME

The main game has a 3x3 panel with 5 Paylines evaluated from left to right.
The Mystery Stack respins feature triggers when 2 reels are filled with the same symbol. The triggering symbols turn into mystery stacks and award a respin where the remaining symbols spin. The mystery stacks move one step down in the next spin and the feature continues until there are no mystery symbols left on the panel.

* All symbols pay from left to right on adjacent reels starting from the leftmost reel.
* Only the highest win is paid per line.
* Wins on different pay lines are added.

WILDS

Wilds can randomly appear on any reel and they substitute for any other symbol except the Scatter.

COINS

Coins give an immediate prize without being part of a payline. Coin symbols appear during respins and free spins.

SCATTER

A Scatter symbol in the center of the reels trigger Free Spins. Scatters can appear in the central reel.

MYSTERY STACKS RESPINS

The Mystery Stacks respins feature triggers when at least 2 reels are filled with the same symbols. Wilds do not trigger the mystery stack feature.
If there are any winnings these are evaluated, the triggering symbols then turn into mystery symbols, and a respin is awarded where the remaining symbols spin.
When the spin ends all the mystery symbols reveal themselves with a randomly selected symbol (including coins of random value), and if there are any winnings these are evaluated. All symbols equal to the revealed symbols become mystery symbols again.
The mystery stacks move one step down in the next spin.
The feature continues until there are no mystery symbols left on the panel.
On each respin with winnings a progressive multiplier increases by 1.

PROGRESSIVE MULTIPLIER

When the Mystery Stacks respins feature triggers, a progressive multiplier is initiated with 1x.
On each subsequent respin with winnings, the multiplier is increased by 1.

FREE SPINS

Land 1 Scatter in the centre of the reels in the main game to trigger Free Spins.
7, 9, 12 or 15 free spins are randomly awarded. Free Spins are played with the same bet as the activating spin. The Mystery Stacks feature can trigger during the whole session.
Free spins start with a global progressive multiplier of x1 and increases by 1 on every spin and respin with winnings.

BUY FREE SPINS

Players can buy into Free Spins with their choice of bet. Buying free spins will also unlock all tiers. Rtp: 96.2%.

HOW TO CALCULATE PAYLINE WINS

* To calculate your total payline win, calculate all payline wins and add them together.
* To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the left most reel.
* If three identical symbols are lined up, find the win value in the dynamic Pay Table. There you can find the value for all symbols for 3 in a row. Only the highest winning combination per line is paid out.
* If the winning combination starts with three Wilds, there can be many ways to interpret the win. In this scenario, only the highest win combination is paid out.

* After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.
