1- Game Description

From the series of Legends. The wizard's Cauldron!

In the deep caves of Algroth, many moons away, the blue wizard poured his knowledge and strength into the Cauldron. Time passed, and the Cauldron grew in power, becoming the source of dreams. Adventurers all over the lands seek for it but still haven't found it.

Cauldron is a classic 5x3 video slot game with 20 fixed pay lines counting from left to right, wilds, scatters, and two Free Spin bonus games with multiplier symbols. During the base game, Wilds appears only on reels 2,3, and 4, substituting all other symbols except the scatter. Three or more scatters on the panel trigger a Free Spins bonus game awarding 10 free spins.

During the Free Spins game, the first time there is a Win on a high-paying symbol (HV1, HV2, HV3, HV4, or HV5) that symbol pays double on all subsequent spins. For each upgrade, players get one additional free spin.

During the base game, collecting scatters in a meter unlocks a Super Free Spins bonus game awarding 10 free spins, where low-paying symbols disappear, and High-paying symbols pay double.

Welcome to Legends - Cauldron, a 5x3 Video Slot with 20 paylines, symbol multipliers, and 2 bonus games with free spins.

ABOUT THE GAME

In the deep caves of Algroth, many moons away, the blue wizard poured his knowledge and strength into the Cauldron, the source of dreams. This is a classic 5x3 video slot game with 20 pay lines, Wilds, Scatters, Multiplier Symbols, a Free Spins game, and a Super Free Spins game, unlocked by collecting scatters.

MAIN GAME

The main game has 20 paylines, evaluated from left to right. Only the biggest win per line is awarded. Wild symbols appear only on reels 2,3 and 4, and substitute for any other symbol except the Scatter.

When 3+ Scatters land on the reels it unlocks the Free spins mode, awarding 10 free spins.

When a Scatter lands on the reels it gets collected, each scatter awards 1 point in the meter. When it reaches 750 points it unlocks the Super free spins mode.

- * The bonus symbol is collected and stored per bet level.
- * The collected bonus symbols are displayed in the progress bar next to the reels.
- * If Free spins and Super free spins are triggered at the same time, Free spins will play first, then Super free spins.
- * During the free games the bonus symbol is not collected to add to the overall progress.
- * Free spins and Super Free spins are played with the same pay lines and bet level as the triggering spin.
- * The scatter symbol pays anywhere. Scatter wins are multiplied by the total bet and added to the pay line wins.

FREE SPINS

Land 3+ Free Spin symbols to trigger Free Spins. 10 free spins are awarded.

When there is a win on a high paying symbol, the symbol is upgraded and will pay double on any subsequent spin. Every upgrade awards one additional free spin. A symbol can only be upgraded once.

When there is a win on a low paying symbol, the symbol is removed from the reels and will not appear on subsequent spins. Every removal awards one additional free spin.

SUPER FREE SPINS

Collect 750 points to fill up the progress bar and trigger Super free spins. 10 free spins are awarded. Super Free Spins has the same mechanics as in free spins but starts with all high symbols upgraded and all low symbols removed from the reels.

HOW TO PLAY

* Press the Spin button to start the game.

HOW TO CALCULATE PAYLINE WINS

- * To calculate your total payline win, calculate all payline wins and add them together.
- * To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the left most reel.
- * If three or more identical symbols are lined up, find the win value in the dynamic Pay Table. There you can find the value for all symbols for 3 in a row, 4 in a row and 5 in a row. Only the highest winning combination per line is paid out.
- * The Scatter symbol pays anywhere. Scatter wins are multiplied by total bet and added to the payline wins.
- * If the winning combination starts with three wilds, there can be many ways to interpret the win. In this scenario, only the highest win combination is paid out.
- * After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.
- * Collection Free Spin wins are rounded to nearest even value (using the bankers rounding algorithm) to avoid showing a fraction of a cent. The total win in the end screen displays the final rounded win.
