5- Game Rules

Welcome to Animafia, a medium volatility Video Slot with power wilds, a collect feature to power up your free spins game and a free spins game with roaming wilds, powerups and retriggers.

ABOUT THE GAME

The game has a 5x5 panel and 40 fixed paylines evaluated from left to right and played on total bet. The game randomly triggers different types of power wilds. Wilds substitute for any other symbol except the Scatter. Scatters do not pay and can appear on reels 2, 3 and 4. Every 2 Scatters increase your collection meter which adds free spins to your next free spin session which is at the top of the game panel. Once the Collection meter is full, you just need to hit 3 Scatters to achieve 20 Free spins. Hitting 2 Scatters won't have any effect.

- * 3 scatters trigger the Free spins game.
- * You can collect up to 20 free spins.
- * Scatter collection is stored per bet level.

POWER WILDS

The feature happens randomly and can trigger any of the following wilds:

- * Random Wilds: 4-15 wilds are randomly placed on the panel.
- * Expanding Wilds: Cover the whole reel and can appear randomly on reels 1-5.
- * Monster Wild: 1x1 - 5x5 sized Wild can appear on random position.

FREE SPINS

3 Scatters award 6-20 free spins, depending on your collection meter, 2 free spins are added to every level reached. Collect each scatter to increase your tier level. If a Scatter symbol lands behind a Sticky Wild, it will also increase the tier level. The collection meter resets when the free spins session is completed. Free spins features roaming wilds with a tier upgrade, the higher the tier the bigger the Monster Wilds roaming around. Collect Scatters to increase your tier level. Roaming Monster Wilds can grow from 1x1 to 5x5 size symbols.

HOW TO CALCULATE PAYLINE WINS

- * To calculate your total payline win, calculate all payline wins and add them together.
- * To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the left most reel.
- * If three or more identical symbols are lined up, find the win value in the dynamic Pay Table. There you can find the value for all symbols for 3 in a row, 4 in a row and 5 in a row. Only the highest winning combination per line is paid out.
- * If the winning combination starts with three wilds, there can be many ways to interpret the win. In this scenario, only the highest win combination is paid out.
- * After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.
- * This game has a win cap of 3200x bet.
