FEATURES

MAIN GAME

The game has a 6x6 panel and 50 paylines that pay from left to right. Scatters can appear on any reel. Wilds can appear on any reel. Wilds substitute for any other symbol except the Scatter. The main game features an Expanding Blocks feature and a Synced Blocks feature.

FREE SPINS

5 or more scatters trigger the Free Spins game, awarding as many free spins as scatters. If more than 5 scatters land during a Wild Respin, these are added to the number of free spins. Collecting Scatters unlocks a tier. A panel multiplier increases with each tier, starting at 2x.

- Tier 0: 2x Multiplier.
- Tier 1: 3x Multiplier, 3 Scatters collected.
- Tier 2: 5x Multiplier, 9 Scatters collected.
- Tier 4: 10x Multiplier, 18 Scatters collected.

MONSTER BLOCKS

Monster Blocks are oversized symbols on the reels that function like individual symbols in a 2x2 to 6x6 formation.

SYNCED BLOCKS

This feature happens randomly, when triggered it transforms all Monster Blocks into the same symbol.

EXPANDING BLOCKS

This feature happens randomly, when triggered the blocks in the panel expand up, down or in both directions. If there are overlaps with other blocks during the expansion the overlapped symbols become Wild symbols.
