## 5- Game Rules

Welcome to Coin Blox, a high volatility Video Slot with Monster Blocks, Synced Blocks, Coin Blocks Feature and powerful Free Spins and Bonus games with retriggers!

### ABOUT THE GAME

In the enchanting world of Coin Blox, tiny characters embark on a grand quest to gather coins in a realm brimming with magic and mystery. From the depths to the peaks of mystic mountains, they uncover treasures long hidden!

### MAIN GAME

The game has a 6x6 panel. The game features Monster Blocks where 1 to 9 oversized symbols can be placed in any spin. It also features Synced Blocks, where all blocks transform into the same symbol. The Coin Blocks feature can trigger randomly.

\* 5 or more Lighter symbols trigger the Free Spins game, awarding as many free spins as scatters.

\* 5 or more Key symbols trigger the Bonus game.

### MONSTER BLOCKS

Monster Blocks are oversized symbols on the reels that function like individual symbols in a 2x2 to 6x6 formation.

### SYNCED BLOCKS

This feature happens randomly, when triggered it transforms all Monster Blocks into the same symbol. Synced Blocks do not include Wilds, Lighter or Key symbols.

### COIN BLOCKS

One block in the panel is filled by coins of random sizes.

Coins fall and get collected into a randomly placed collector.

The collector can cover 2 to 6 consecutive reels and it collects coins from the reels it covers.

Once coins are collected the block transforms into a random high or low symbol.

Coin Blocks can include coins of the following sizes:

\* Base: 0.2, 0.5, 1, 2, 3, 5, 10, 25, 50, 100

\* Free Spins: 0.5, 1, 2, 3, 5, 10, 25, 50, 100, 250, 500

\* Coins Bet: 0.2, 0.5, 1, 2, 3, 5, 10, 25, 50, 100, 250, 500, 1000

### FREE SPINS

Synced Blocks and Coin Blocks trigger more often. Coin Blocks include bigger values.

Any Lighter symbol that lands in the panel adds an additional free spin.

The Bonus Game can be triggered during Free Spins by landing 5 or more Key symbols.

### BONUS GAME

The bonus game is played in a panel with 4 levels.

Coins of different sizes randomly land on any level.

On each spin a level is selected, if the level is unlocked all the coins in the level are collected. The Coins sizes per level can be:

\* Level 1 Coins: 0.5, 1, 2, 5

\* Level 2 Coins: 5, 10, 25

\* Level 3 Coins: 25, 50, 100

\* Level 4 Coins: 250, 500, 1000, 5000

Each level is unlocked by collecting Key symbols landing in the first level. Key symbols in the first level are always collected.

\* Level 2 is unlocked after collecting 5 Keys.

\* Level 3 is unlocked after collecting 11 Keys.

\* Level 4 is unlocked after collecting 17 Keys.

### GOLDEN BET

Pay x0.5 extra per bet and increase the chance of triggering Free Spins. Rtp: 96.6%.

### COIN BET

Pay x0.5 extra per bet and increase the chance of triggering Coin Blocks. Rtp: 96.4%.

### BUY

Players can buy into Free Spins or Bonus game with their choice of bet size.

\* Buy random Free Spins. RTP is: 96.6%.

\* Buy Bonus Game with random spins. RTP is: 96.6%.

### HOW TO CALCULATE PAYLINE WINS

\* To calculate your total payline win, calculate all payline wins and add them together.

\* To calculate a single payline win, count the number of identical symbols lined up in sequence on the line starting from the left most reel.

\* If three or more identical symbols are lined up, find the win value in the dynamic Pay Table. There you can find the value for all symbols for 3 in a row up to 6 in a row. Only the highest winning combination per line is paid out.

- \* If the winning combination starts with three wilds, there can be many ways to interpret the win. In this scenario, only the highest win combination is paid out.
- \* The above doesn't include Scatters which do not need to be on a payline to award a prize.
- \* After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.
