BONUS GAME

Each new Coin resets the respins to 3. The feature ends when no respins remain or all 15 cells are filled, triggering the Grand Prize of 1,000x the bet.

FREE SPINS

Landing 3 or more Scatters triggers the Free Spins feature, awarding 5 Free Spins. During Free Spins, reels 2, 3, and 4 merge into a Giga reel, increasing the chances of landing high-value symbols. A Big Scatter on the Giga reel awards 3 additional Free Spins.

BONUS GAME IN FS

A Big Coin on the Giga reel triggers the Bonus Game, which is played with a Giga Coin locked in the center, offering the chance to win cash prizes and the Grand Prize.

BUY & GOLDEN BET

For 1.3x the regular bet, the Golden Bet reduces the number of Coins needed to trigger the Bonus Game from 6 to 5 and doubles the values of Big Coins during the Bonus Game.

Players can also directly access the game's key features by purchasing the Bonus Game for 55x the bet or the Free Spins feature for 70x the bet.
