## 5- Game Rules

Welcome to Potion Power, a high volatility 5x5 video slot game with the signature Grid Pays features, Avalanche Cascades, Wild Multipliers, and an exciting Free Spins feature with Sticky Wilds!

### MAIN GAME

The game has a 5x5 panel. Three or more linearly matching symbols (vertically or horizontally) constitute a win. When a winning combination is formed, the symbols involved are removed, triggering the Cascade feature. Cascades will continue until there are no further wins. During cascades random Wild is placed in the connected empty spots. Wild multipliers increase based on the number of removed symbols. These wilds are not removed until they are part of a win. New symbols drop to fill the empty spaces, potentially forming new wins. Wilds substitute for any other symbol except the Scatter. Scatter appears anywhere on the reels and doesn't have any payout. When 3+ scatters land on the reels it triggers the Free Spins game.

### GRID PAYS

Grid pays winning combination is formed when three or more matching symbols align in a straight line, either vertically or horizontally.

### MYSTERY SYMBOLS

This feature transforms random symbols in the panel into the same symbol and it happens randomly. Mystery symbols do not include Scatter or Wild symbols.

#### WILD MULTIPLIER

If a removed symbol includes a Wild with a multiplier, its multiplier is added to the new Wild. For other removed symbols, +1 is added to the new Wild's multiplier for each removed symbol.

\*When multiple Wilds with multipliers are part of the same grid, their multipliers are added to each other.

#### FREE SPINS

Landing 3 or more Scatter Symbols triggers the Free Spins feature. Free Spins are played with the same bet as the triggering spin. Free Spins cannot be retriggered.

\*3 Scatter Awards 7 Free Spins

\*Each additional Scatter awards +2 Free Spins.

Wilds placed during cascades become sticky at the end of the spin and do not reset their multiplier for the next spin.

#### GOLDEN BET

Players can pay x0.2 extra per bet to double their chances of hitting Free Spins.

#### BUY INTO FREE SPINS

Players can buy into Free Spins with their choice of bet size.

\*Players can pay x100 to buy into 7 Free Spins.

\*Players can pay x200 to buy into Random Free Spins (7-11 spins).

#### HOW TO CALCULATE PAYLINE WINS

\*Winning lines can be vertical or horizontal.

\*To calculate your total win, calculate all wins of lines and add them together.

\*To calculate a single line win, count the number of identical symbols lined up in sequence on the line, vertically or horizontally.

\*If three or more identical symbols are lined up, find the win value in the dynamic Pay Table. There you can find the value for all symbols for 3, 4 and 5 in a row/column. Only the highest winning combination per line is paid out.

\*After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.
