## 5- Game Rules

Welcome to Dig it! A high volatility 7x7 video slot game with Cluster Pays mechanics, Cascades, unlimited Wild multipliers, Sticky Wilds moving in the panel, exciting Free Spins and Super Free Spins features.

## MAIN GAME

The game has a 7x7 panel with the mechanics of Cluster Pays. 5 or more symbols matching horizontally or vertically constitute a win. When a winning combination is formed, the symbols involved are removed, triggering the Cascade feature. The empty spots are filled with new symbols. One or more Wilds can randomly be placed in the empty spots which also carry multipliers starting from x1. All other non-winning symbols of the same type are removed from the panel and collected onto the Wild(s). For each symbol type collected, the multiplier grows by +1x. Wilds stick in the panel during the Cascades and move a step to the adjacent reels between cascades thus increasing the chance of potential winning. Cascades will continue until there are no further wins. The multiplier resets when the cascade ends. Wilds substitute for any other symbol except the Scatter. Scatter appears anywhere on the reels and doesn't have any payout.

\*3 or more Scatter symbols trigger Free Spins.

## CLUSTER PAYS

Cluster pays winning combination is formed when 5 or more matching symbols align in a straight line, either vertically or horizontally.

## WILD MULTIPLIER

Wild multiplier is formed based on the number of non-winning symbols of matching types starting by x1 and increasing by +1x for each non-winning removed symbols in the main game, Free Spins and Super Free Spins.

When there are multiple Wilds in the same cluster, their multipliers are added to each other.

## FREE SPINS

Landing 3 or more Scatter symbols triggers Free Spins. Free Spins are played with the same bet as the triggering spin. Free Spins cannot be retriggered.

3 Scatters award 8 Free Spins

4 Scatters award 9 Free Spins

5 Scatters award 10 Free Spins

Wild symbols and their multipliers carry over from triggering spin to Free Spins. During cascades Wilds become sticky at the end of the spin and do not reset their multiplier for the next spin.

## SUPER FREE SPINS

Super Free Spins session can be triggered only with the Buy option.

\*5 Scatters award 10 Free Spins with 2 guaranteed Wild symbols\*

Wild symbols and their multipliers carry over from triggering spin to Super Free Spins. During cascades Wild symbols become sticky at the end of the spin and do not reset their multiplier for the next spin.

## GOLDEN BET

Players can pay x2 extra per bet to double their chances of hitting Free Spins.

## BUY INTO FREE SPINS

\*Players can pay x80 their bet to buy into Free Spins with their choice of bet size (8 spins).

\*Players can pay x160 to buy into Super Free Spins with their choice of bet size (10 spins).

## HOW TO CALCULATE WINS

\*Winning lines can be vertical or horizontal.

\*To calculate your total win, calculate all wins of lines and add them together.

\*To calculate a single line win, count the number of identical symbols lined up in sequence on the line, vertically or horizontally.

\*If five or more identical symbols are lined up, find the win value in the dynamic Paytable.. Only the highest winning combination per line is paid out.

\*After the Free Spins round is completed, all wins are added to any win from the game that activated the Free Spins.

\*The game has a win cap of 20000x bet.
